Filamat represented in Eastern Canada and New England states

Toronto, ON. - Filamat Composites Inc announced that their Manufacturers Rep Network has expanded. They recently added a new representative company to the network – Discan, headquartered in LaSalle, Quebec.

Discan now represents Filamat and the Filamaster product line in Quebec, the Maritime provinces as well as in Maine, Vermont and New Hampshire.

“Since the launch of our Filamaster product line, a short time ago, we now have representation in both Canada and United States” stated John Lambert, General Manager. “The market has shown great enthusiasm for our Filamaster products.”

The Filamaster product line includes a full range of corrosion-resistant ducts, tanks and pipes, made with the same quality-assurance guarantee that comes with all Filamat products. Standard Filamaster products can be ordered in a wide variety of standard sizes and shapes, and can be custom made.

About Filamat

Filamat Composites Inc. is an ISO 9001-2000 certified original equipment manufacturer of fiber reinforced plastic products (FRP). Serving clients across North America, Filamat is an industry leader in FRP design, engineering, prototyping, development and manufacturing.
