TANK SERIES

FRP CORROSION RESISTANT VERTICAL TANKS

Features

- Wide variety of standard sizes
- Fabricated under ISO 9001-2000 quality assurance system
- Superb corrosion resistant fiberglass construction
- Fabricated using only premium resins and E-glass reinforcement
- Low maintenance and lightweight
- Easy to transport and install

Accessories

- Insulation and heat tracing
- Fiberglass man ways and covers
- Flanged and gusseted fiberglass nozzles
- PVC and FRP couplings
- Anchoring systems
- Fiberglass ladders and platforms
- Dip pipes
- Mixer channels
- Stainless steel fittings

Types

- Round
- Rectangular
- Horizontal
- Vertical

Tops

- Dished
- Flat
- Open with build up
- Open with rim flange
- Flat bolted

Bottoms

- Flat
- Flat with sloped bottom
- Dished with skirt
- Dished with legs
- Cone with legs
